4x4 2/3 Berth Budget Poptop CC Bushcamper

These 1998 4x4 Toyota Landcruisers with Poptop roof are the most popular and reliable fourwheel drives, used all around Australia. During the day, with the roof down, it looks and drives like any other Landcruiser. At the end of the day, the popped up roof offers space to an extra double bed. Downstairs the bench converts to a single bed.
